Regional Integrated Weed Control Project: Okanogan County RAC Title II – Biological Control Agent Request Form –

If you would like to be placed on a list to have biological control agents released on your land, please fill out this form in as much detail as possible and return it to WSU Douglas County Extension. Biocontrol agents are best released on large infestations without disturbance and herbicide/ insecticide usage. The presence of livestock is fine. For more information please contact Dale Whaley or go to http://invasives.wsu.edu/index.htm

Return this form to: Dale Whaley, WSU Douglas County Extension
P.O. Box 550, 203 S. Rainier St. Waterville, WA 98858
dwhaley@wsu.edu (509) 745-8531

Name: _____ Phone: (H)_____ Phone:(W) _____Phone(C)_____

Address: _____City:_____Email:_____

Type of weed: _____estimated # of infested acres: _____

Best day(s) and time to contact you: _____

If a release is made on your property, we ask that representatives of the Regional Integrated Weed Control Project be allowed access to the site for approximately seven years for monitoring and collection purposes. RIWCP representatives will be in contact before site visits. I certify that I am the landowner or land manager of the requested release area and agree to the above terms.

Signature: _____ Date: _____

Please draw a map and provide directions to the weed infestation site on the back of this request form. You will be contacted by telephone before a release is made.

Cooperating Agencies: Washington State University, U.S. Forest Service, U.S. Department of Agriculture, Chelan, Douglas, Kittitas and Okanogan Counties.
Extension programs and employment are available to all without discrimination. Evidence of noncompliance may be reported through your local Extension office.
