**Subject:** Juvenile Detention Center

Okanogan County Commissioners:

For families of youth in Okanogan County, reconsider closing the Detention Center. Families will not be able to maintain any connection with their child if you close the Detention Center in Okanogan. Transportation will be extremely difficult if not impossible. The families of Okanogan County need to be able to see their child and stay connected. It is the right thing to do--keep the Detention Center open.

Thank you for considering this letter.
