Subject: Okanogan County Juvenile Detention Center

I wish to voice my strong OPPOSITION to the Commissioner's current idea to give up local control of juvenile detention and instead transport youth offenders out of Okanogan County for detention services. I have reviewed multiple comments both for and against this idea, and have come to the conclusion that our young people needing detention are best served and the tax payers dollars are best utilized keeping the service local. Please review the article dated March 2, 2016 in the Methow Valley News by former Superior Court Judge Jack Burchard's explaining the benefits of local control of the Juvenile Detention Facility. I hope the Commissioners will respect the views of someone who spent many years working in the Court system, and has far more familiarity and understanding of the issues than they do.

Respectfully,

Sheila Coe
