Re: Pot Farms
Greenacres Road, Omak

Dear Commission;

I live on Greenacres Road, about ½ mile south of several pot farms. They are a nuisance and potential danger to the public and we do not need or want more pot farms.

Before pot farms one of our greatest pleasures, living at Proctor Lake, was being outdoors. We are surrounded by nature's beauty; birds, animals, water, mountains, peace. For almost twenty years we have treasured this beauty. After pot farms the UNBEARABLE skunky pot smell has curtailed that enjoyment. Before pot farms we did not know that marijuana plants reek even when they are not being smoked!

After pot farms fast traffic has increased on Greenacres Road, we now have turn around traffic coming down our private driveway, night lights surrounding the farms are extremely bright and offensive, and with the break in and robbery they experienced a few months ago a new criminal element has been introduced into our neighborhood. The horrible pot smell keeps people indoors when they would like to be enjoying their evenings outdoors.

Please do not allow more pot farms in our area!

Sincerely,

Robert Tollefson
