Subject: Nightly rentals

> please enforce existing laws regarding nightly rentals. Anyone who rents out rooms, houses, cabins, etc on a nightly or anything less than at least a monthly basis should have a permit/license, should pay all appropriate taxes including tourism taxes, should be periodically inspected, should have insurance, should be a use appropriate to the area it is in, etc. It is important for the Methow, at least, that rental units (typically rented by the month) be available to seasonal workers and longer term workers/residents.
