Subject: Comments on County Comprehensive Plan, Interim Zoning, and Determination of Non Significance

Dear Director Huston,

I'm concerned that the implementation of this Comprehensive Plan would have a probable and significant adverse impact upon the environment. Thank you for all the hard work you have done to date, but more work is needed to make this an effective Comprehensive Plan. In the Methow Valley, there has to be water available for the densities proposed – these must be linked. Also, I'd like to see the current CPA's for the Methow Valley included in this document and a CPA developed for the Lower Methow Valley so that all the planning to date from these local groups is intact.

Thank you for taking my concerns into consideration.

Sincerely,
Rhoda Walter
