**Subject:** comments on county comprehensive plan

Mr. Huston

I feel that in its current form the Comp plan does not specify measures to ensure an adequate water supply for all density possibilities. The Comp plan should do more to protect groundwater and incompatible use eliminated from District Use Chart. The comp plan should reflect the limitations of available water on its zoning designations.

I am especially offended that as the Comp plan has gone through numerous revisions citizen input has been pushed aside and eliminated. All this valuable information needs to be properly placed back in the document.

So far the Upper and Middle Methow Valley zoning has been kept in place and I see no reason to consider changing that in any further revisions. The Methow CPA's should stay in the plan, be legally defensible and up to date.

Thank you, Larry Halford
