Subject: comments on county comprehensive Plan, Interim Zoning, and Determination of Non Significance

Perry Huston Planning Director and Okanogan County Commissioners,

Thank you for retaining the CPA's for the Upper and Middle Methow Valley. We know these documents need to be updated, however they are the foundation of many years of planning in the Methow Valley. We would hope that you will continue in this vein in the final Draft. We were very active in the neighborhood planning groups that were held throughout the County in 2008. We are disappointed that the many hours of community input seems to have been disregarded as far as further CPA's for other parts of the county. As Commissioners we know it is hard to govern such a large and diverse county, but it seems for the best Comprehensive Plan it is important to make sure that acreage sizes and water allocations are tightly regulated by water shed and land use. Again thank you, for supporting the Upper and Middle Methow Valley CPA's.
