Subject: Environmental Impact Statement

To Whom It May Concern:

As Okanogan County considers its upcoming Environmental Impact Statement, I ask that it consider answers and alternative answers to the following issues that are important to me as a homeowner and landowner in the county:

1. Ensuring adequate evacuation routes in the event of devastating wildfires
2. Ensuring that future growth not adversely affect the rural quality of life that the Methow Valley is known for - a balance of recreation and sustainable economy, plus maintaining the beautiful aesthetics of our natural surroundings
3. Ensuring continued availability of water
4. Ensuring that future growth be supported by necessary upgrades in infrastructure

Thank you for your consideration.
