Perry Huston, Planning Director  
123 5<sup>th</sup> Ave N Suite 130  
Okanogan, WA 98840

Dear Director Huston, thank you for the opportunity to provide input during scoping for the Draft Comprehensive Plan Environmental Impact Statement (EIS).

I believe an expanded list of issues to be evaluated is necessary for conducting a thorough and credible analysis of the environmental impacts of the Comprehensive Plan alternatives. Following are some of the issues that should be addressed:

- Air quality
- Wildfire risks to property and life
- Surface water quality and quantity
- Riparian corridors
- Wildlife habitat connectivity

Again, thank you for the opportunity to provide suggestions for this important document. Please feel free to contact me if you have any questions.

Gina McCoy, P.E.
