I am writing in support of Alternative 4 as proposed by the Methow Valley Citizens Council.

Alternative 4 better addresses many of our concerns about future development in the Methow Valley and Okanogan County at large, including the availability of water to support development, the impact of climate change on wildfires and water resources, and the desire of many of us to maintain a balance of agriculture, forest industry, tourism, fish and wildlife populations and habitat, and the rural character of our valley.

Thank you,
Mel Cooke
