Subject: Draft Comprehensive Plan comment

Dear Planning Commission,

Thank you for the opportunity to submit my comments about the Draft Comprehensive Plan. The Methow Valley is to me a sacred place as it was to the indigenous people who were here for thousands of years before the European settlers arrived. Their value for the land, water and animals should be a guiding principle for our stewardship of this land.

To that end I lend my support of the Alternative 4 proposal put forth by Methow Valley Citizen's Council. I believe it speaks to those principles and protects for all of us the precious environmental resources that have been entrusted to us.

Sincerely,
Myra Brubaker
