Subject: Comp Plan Comments for Planning Commission

Our comp plan in the county and in the Methow valley should take into account our water issues and the possible lack in the future. Our situation with increased fire activity on the future and our wildlife habitat. These all should be incorporated with future growth. Developers need not use valuable open land but increase developable land around townships. Growth should be sensible and held to higher standards. MVCCs plans for the future should be utilized. Thank you. Mike Real. Winthrop
