Subject: Comprehensive Plan and DEIS Comments

Thank you for considering my comments. I am no expert in this type of planning but I have made an effort to learn a bit. My understanding is a Comprehensive Plan is a policy document that is the roadmap for future development. My understanding is that there is considerable data regarding water and other environmental concerns that have accrued over the past 30-40 years that were not considered in the current plan options. I understand that there is expertise and experience both local and regional that Okanogan county could tap at this point to actually meet the expectations of a Comprehensive Plan. This process is an opportunity to create a meaningful roadmap for our future. Please engage the expertise you need to make a plan that truly will meet our county's needs.

Thank you
Elizabeth Weiss
